## Make your medical coding easier, seamless, and more transparent

Automating your medical coding will reduce costs for your organization. But how can you do it without adding staff and overloading your existing team?

With Sutherland Healthcare, it's easier than you think.

We meet you where you are with a shared-services model tailored to your needs. Our automated coding solutions fully integrate with your data securely and seamlessly — without a labor-intensive setup.

## Boost efficiency while managing staffing risks

Sutherland Healthcare's intelligent automation gives you a 24/7 digital workforce that helps you overcome staffing challenges. Our EHR-agnostic coding solutions deliver:

- Greater cost savings
- Seamless integration
- Accurate, consistent coding
- Faster turnaround time
- Unlimited capacity

Let our platform's interfaces handle your large volumes of data from disparate sources and provide consistent output. Sutherland Healthcare's certified coding staff optimize and oversee the process, ensuring audit-ready, traceable results for every case we code.

## We do the complex for you
