

SIMPLICITY SELLS.

Introducing AP1
ADAS and video in a simple, easy-install, highly intuitive package, priced to compete.

ADAS TECHNOLOGY WITH DRIVER ALERTS

Forward collision warning

Lane departure warning

Forward vehicle proximity warning

Forward vehicle start alert

KEY FEATURES AND BENEFITS

- “Critical few” feature set for safety improvement at an affordable price
- Plug-and-play design for lightning-fast, cost-effective installation
- Failsafe functionality to ensure video is uploaded to the cloud during a catastrophic event
- Assisted-GPS technology automatically uses cellular towers to triangulate location in the absence of line-of-sight with a satellite
